REMARKS

In the Office Action, the Examiner identified two inventions said to be distinct and separate. Specifically, the Examiner identified claims 1-3 to be drawn towards a surveillance system having video subsystem, and claims 4-21 to be drawn towards surveillance having magnetic field detection region.

Applicants hereby elect to proceed with prosecution of Group 2 identified by the Examiner. Claims believed to fall under Group 2 include 4-21. Accordingly, claims 1-3 have been canceled for possible inclusion in a subsequent divisional application.

If the Examiner believes that a telephonic interview will help speed this application toward issuance, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,
